

2nd International Conference on Computing and Machine Learning (CML 2025)

Mr. Sudharshan Tumkunta

Talk Title:

AI, Hardware, and Efficiency

Abstract / Profile:

Abstract: The relationship between AI, hardware, and efficiency is crucial for the development and deployment of AI systems. The efficiency of AI systems is heavily influenced by the hardware used. By optimizing hardware and software co-design, managing diverse hardware types, and employing effective telemetry and observability tools, organizations can improve the efficiency of their AI systems.
