2nd International Conference on Computing and Machine Learning (CML 2025)

Mr. Praveen Baskar

Talk Title:

LLM powered Data schema migrations

Abstract / Profile:

Abstract: This talk addresses the challenges of data schema migrations, which are often complex, time-consuming, and error-prone. It proposes a solution using LLMs to semi-automate the migration process. The LLM can generate the migrated code by providing the LLM with the old and new schemas, significantly increasing migration velocity and reducing manual effort.
